

Spot the pattern

About 20 minutes. Read the model. Then describe the second graph in four sentences. Write them here, or record yourself saying them.

1 Read the model

This paragraph describes the video game graph.

A shop in Bangkok · Example data

- 1 Overall, sales of the game decreased steadily from 80 copies in Week 1 to 25 copies in Week 6.
- 2 The biggest fall was between Week 1 and Week 2, when sales dropped by 18 copies.
- 3 The smallest fall was between Week 5 and Week 6, when sales dropped by only 6 copies.
- 4 If this pattern continued, sales might fall to around 20 copies in Week 7, but the data only shows six weeks.

1 overall trend · 2 biggest change · 3 smallest change · 4 careful prediction

2 Look at your graph

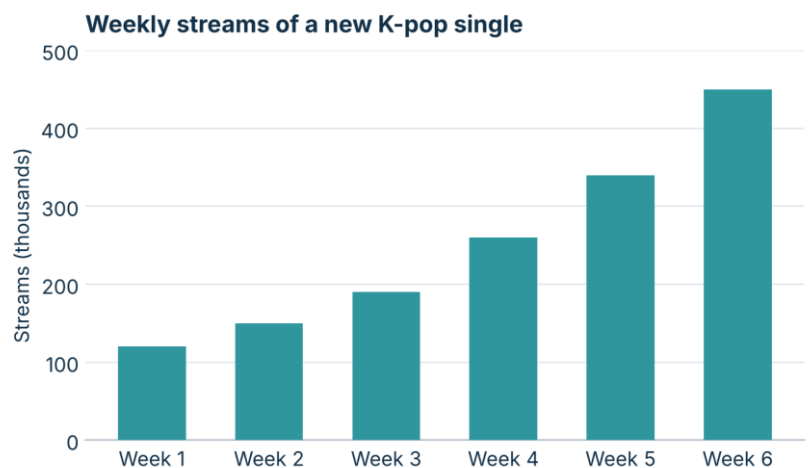

Weekly streams of a new K-pop single in Thailand.

Draw an arrow for the overall trend. Circle the highest and the lowest bar.

3 Write four sentences

Use the same four jobs as the model. Write below.

Need more words? Use the Unit 2 Language Bank.

Listeners in Thailand · Example data

- 1 (overall trend) _____
- 2 (biggest change) _____
- 3 (smallest change) _____
- 4 (careful prediction for Week 7) _____

4 Check it

Tick when your sentences pass.

☐ every number is in the graph

☐ sentence 4 uses “might”

☐ four different jobs

STRETCH Compare the two graphs. Write one sentence about the game and the K-pop single. Try “Compared with...” or “In comparison, ...”.
